

The Future Ready GC: Reshaping Legal to Meet New Demands

London | October 24 - 25, 2023

As budget pressures rise, demands on corporate legal leaders stretch in every direction. Even the most agile need a supportive structure to thrive. Senior team members require the time and tools to learn, think and strategize to advise on changing business and legal risks without getting stuck in routine service demands. To serve your many stakeholders and your team, it's vital to reshape the Legal organization differently.

Our autumn Forum is hosted by our member BT Group at the company's headquarters in central London. You will gather with experts and industry luminaries to hear examples and discuss structures and approaches for your organizations to succeed and thrive into the future. We'll also reveal our 6th Global Counsel Leaders Benchmark Survey findings, where you will gain insights on trends in corporate legal chiefs' priorities and practices.
